I am finishing up two other PA's and then I will start to read this PA. I have not had a chance to read it until I am finished with these two others but I will should have comments by next week.

Hi Yufna,

I just wanted to check in to see if you had a chance to review the information below on the NRC Programmatic Agreement I sent you just before our call earlier this month. I know there wasn't time to look at it then with all the other things you had going on. I mainly just wanted to see if you had any questions about the info or if you would like to talk about any of the info. I would like to hear your thoughts on it when you have a chance.

Thanks!

Subject: RE: Northern Arapaho Questions

Hi Yufna,

The Nuclear Regulatory Commission finalized a PA that included the BLM. We have not signed onto that PA. One of the decisions the EPA must make is whether we should conduct our own separate NHPA section 106 process or designate the NRC as the lead agency and sign on to their PA. At this point we are still engaged in a separate NHPA 106 process and have not gotten to the PA stage yet.

The NRC PA is found at:

<http://www.nrc.gov/info-finder/materials/uranium/licensed-facilities/dewey-burdock/section-106-project-docs.html>

The archaeological reports I have seen are the ones the NRC has posted on website.

I have attached the "Summary Report Regarding the Tribal Cultural Surveys Completed for the Dewey-Burdock Uranium In Situ Recovery Project" and the "Final Appendix for the Dewey-Burdock Project PA"

The document "FinalPAApdxML14066A350" includes:

Appendix A – Federal Actions, Undertaking, and Area of Potential Effects

Appendix B – Cultural Resource Identification and Consultation Efforts

Appendix C – Reporting Criteria for the Monitoring Plan

Appendix D – Treatment of Human Remains on State, Private, and BLM Land

Table 1:0 NRC Determinations of Eligibility and Impact Analysis for Previously Recorded Archaeological Sites and Tribal Sites – Dewey-Burdock Project and

Table 2:0 NRC Determination of Potential Adverse Effect Analysis for Previously Recorded Archaeological Sites and Tribal Sites – Dewey-Burdock Project

are in Appendix B and contain lists of the sites identified.

If you open the comments section of that document, it shows where I have inserted comments marking areas of interest to make it easier to get to those sections of the document. If you click on the comment & it takes you to that location in the document.

Under the Reference section for Appendix B, there is a reference to the Level III cultural resources evaluation performed by Powertech's contractor Augustana College Dept of Archaeology. Looking at all those reports is

too much to try to do before our meeting (I haven't read through all of them yet), If you are interested in looking at those at some point, I have found that you can copy the NRC accession # (e.g. ML100670302) from the reference and paste it into Google and type "NRC" in front of the number. Google has been pretty good about finding the links to those documents on NRC's website.

I hope this helps! Please let me know if you have any more questions.

Thanks!

Valois

Subject: Northern Arapaho Questions

Hi. So I been going over our tribal survey and report.
I had some questions regarding the project.
I have not run into any Programmatic Agreement, Scope of Work, MOU/MOA for this undertaking?
Would you happen to have any of these documents?
I'd like to review them before we talk wednesday.

Also I am reading the tribal survey we wrote.
The retired director Darlene Conrad is no longer in this director position.

However we have some files and reports from the project.
We also only have Volume 1, was there any other archeological reports since this time?

Any clarification would be very helpful before the meeting.

Thanks!
